- Sprayers
- Extractors
- Scrubbers
- Mops & Buckets
- Pressure Washers

***Discard solution down drains to maintain flow and eliminate odours in pipes and sewage lines!**

Benefits of R&T Cleaner:

R&T Cleaner has a dramatic effect on ATP:

By testing for ATP (adenosine triphosphate), facilities can determine which surface areas are being cleaned properly or which must be cleaned more thoroughly. Though it may not suit the standards of every facility, a common threshold for ATP is that of less than 100 RLU depending on the monitoring device.

Amount of RLU on contaminated Valve from CIP prior to cleaning.

Amount of RLU on Valve from CIP after cleaning with R&T Cleaner

- ✓ **Environmentally Beneficial**
- ✓ **Inactive Biocatalyst – No Chemicals**
- ✓ **100% Hypoallergenic**
- ✓ **Biodegradable**
